

Amendment to the Drawings

Please replace Replacement Sheets 10/11 and 11/11, previously submitted on March 17, 2009, with new Replacement Sheets 10/11 and 11/11 submitted herewith. These newly submitted Replacement Sheets include amended Figures 17 and 18, which have been modified to more closely illustrate the corresponding portions of the originally filed written description. In particular, the arrows found at the right of Figures 17 and 18 have been amended to illustrate the thermodilution catheter being placed with the blood flow.
